# GARDENA Garden Pump 3000/3 Jet

Welcome to the Garden of GARDENA ...

Please read these operating instructions carefully and observe the notes given. Use these operating instructions to familiarise yourself with the Garden Pump, its correct use and the notes on safety.

For safety reasons, children under the age of 16 as well as persons not familiar with these operating instructions should not use this Garden Pump.

► Please keep these instructions in a safe place.

## 1. Where to Use Your GARDENA Garden Pump

### Intended use

The GARDENA Garden Pump is designed for domestic use around the house and garden.

When using the pump for pressure intensification, the max. permissible internal pressure of 6 bar (on the delivery side) must not be exceeded. The increased delivery pressure and the pump pressure have to be added together.

- Example: Pressure at the tap = 1.5 bar, maximum pressure of the Garden Pump 3000/3 Jet = 3.3 bar, total pressure = 4.8 bar.

### Liquids that can be pumped

The GARDENA Garden Pump can be used for pumping rainwater, tap water and chlorinated swimming pool water.

### Please note

The GARDENA Garden Pump is not suitable for continuous operation (e.g. industrial applications, continuous circulating operation). Corrosive, easily combustible, aggressive or explosive liquids (such as gasoline, petroleum or nitro thinner), saltwater and food must not be pumped. The temperature of the liquid must not exceed 35 °C.

## 2. For Your Safety

### Warning! Electric shock!

Risk of injury due to electric shock.

- Always unplug your Garden Pump before filling, after operation, when troubleshooting and before carrying out any maintenance work.

### Hot water – risk of scalding!

If the pump is operated for prolonged periods of time ( $> 5$  min) with the delivery side closed, the water in the pump may heat up so that there is a risk of scalding yourself with hot water.

- The pump should not run against the closed delivery side for more than 5 minutes.
- If liquid fails to flow, switch off the pump immediately.

### Location

Caution: Pursuant to DIN VDE 0100-702 and 0100-738 use of the pump nearby swimming pools and garden ponds and other similar places is only permissible if the pump is operated via a residual-current device (F1 switch) with a residual current rating of  $\leq 30$  mA. The pump must be located on solid, even ground, protected from flooding. Take care that the pump cannot fall into water. As an additional safety device an authorised safety switch can be used.

- Please ask your electrician for his advice.

### Extension cables

Date indicated on the type plate must match technical data of the mains supply.

Pursuant to DIN VDE 0620, power cable as well as extension cables must not have a smaller diameter than rubber sheathed cables described with letter symbols H07 RNF.

- Don't use the power cable for carrying the pump or for plugging off.

### In Austria

In Austria, the electrical connections must be made according to ÖVE-EM 42, T2 (2000)/1979 § 22 based on § 222. Pursuant to this regulation it's imperative to operate pumps for swimming pools and garden ponds exclusively via an isolating transformer.

- Please ask your electrician.

### In Switzerland

In Switzerland mobile appliances which are used outdoors, must be connected via a residual-current device.

### Visual check

- Before operating the pump, first make a visual check, if there is any damage of the pump (esp. regarding power cable and plug).

A damaged pump must not be used.

- In case of damage, please have the pump checked by our GARDENA Service Centre or by an authorised electrician.

### Note

- Protect the pump from rain. Don't use the pump in wet or moist area

In order to avoid dry-running of the pump, take care that the end of the suction hose is always submerged into the liquid.

- Before each operation, fill the pump to overflowing with approx. 2 to 3 l of the liquid to be pumped!

Sand and other abrasive substances in the liquid cause increased wear and reduce the pump's output.

- Use a pump preliminary filter for pumping sandy liquids.

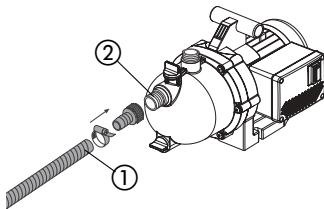

The minimum flow rate is 80 l / h (= 1.3 l / min). Watering accessories with lower rate must not be operated.

### 3. Initial Operation

**Setting up your Garden Pump:** The site must be firm and solid in order to ensure safe and sturdy operating conditions for the pump.

- Position the pump at a safe distance from the liquid to be pumped.

#### Connecting hose to suction side:

Don't use any hose connection system fittings on the suction side! A vacuum-resistant suction hose must be used

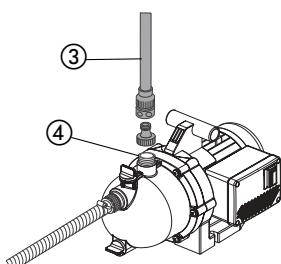

- e.g. GARDENA Suction Unit, **art. no. 1411**.

In order to reduce the suction time, it is advisable to use a suction hose with backflow preventer avoiding automatic draining of the suction hose when the pump is stopped.

1. Screw a vacuum-resistant suction hose airtight onto the connector ① on the suction side of the pump ②.
2. For suction heights exceeding 4 m also secure the suction hose ① (e.g. by fastening it to a wooden post).

*This relieves the pump of the weight of the suction hose.*

#### Connection hose to delivery side:

The pump connection ④ is equipped with a 33.3 mm (G 1") thread suitable for connecting 13 mm (1/2"), 16 mm (5/8") or 19 mm (3/4") hoses using the GARDENA hose connection system.

Best results regarding the delivery capacity of the pump are achieved when connecting 19 mm (3/4") hoses in conjunction with e.g.

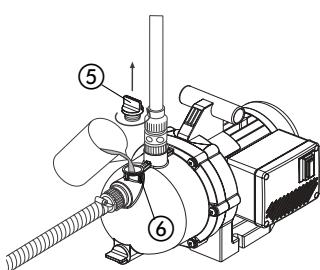

- GARDENA Pump Connection Set, **art. no. 1752**,
- or when using 25 mm (1") hoses with fittings available from your sanitary dealer.
- Connect the pressure hose to the connector ③ on the delivery side ④.

When connecting simultaneously more than 2 hoses/accessories we recommend application of the

- GARDENA Twin-Tap Connector or Four Channel Water Distributor **art. no. 1210 / 1194**,
- which can be screwed directly onto the delivery side connection ④.

### 4. Operation

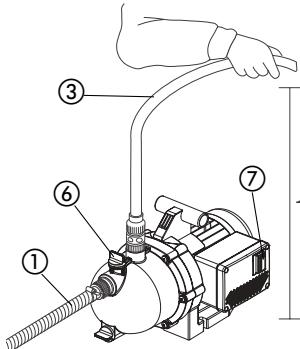

#### Filling the pump:

**Warning! Electric shock!**  
Risk of injury due to electric shock.  
► Disconnect from the mains before filling the Garden Pump.

**Dry-Running**  
► Before each operation, fill the pump to overflowing with approx. 2 to 3 l of the liquid to be pumped!

1. Unscrew the screw fitting ⑤ of the filler cap ⑥ by hand.
2. Fill the pump via the filler cap ⑥ to overflowing with approx. 2 to 3 l of the liquid to be pumped.
3. Tighten the screw fitting ⑤ of the filler cap ⑥ by hand (do not use pliers).

4. Open all possible shut-off devices in the pressure line (watering accessories, Water Stop, etc.).
5. Drain remaining water (3) in pressure hose so that air can escape during the suction process.
6. Set On/Off switch (7) to position „0” position.
7. Plug the pump into a 230 V / 50 Hz alternating current socket.
8. Set On/Off switch (7) to position „1” position.
9. Hold the pressure hose (3) approx. 1 m vertically above the pump until the pump begins to pump.

→ If the pump does not deliver liquid after 7 minutes, set the On/Off switch (7) to position „0” (see 6. Trouble-Shooting).

The specified maximum self-priming height of 7 m is only achieved if the pump is filled via the filler neck (6) until it overflows and if the suction hose (1) is held as high as possible while filling and during the self-priming procedure so that no liquid can escape from the pump via the suction hose (1).

## 5. Maintenance

### Cleaning your Garden Pump:

The GARDENA Garden Pump is essentially maintenance-free.

The pump must be cleaned after pumping chlorinated swimming pool water.

1. Rinse the Garden Pump with lukewarm water (max. 35 °C). If necessary add some soft cleaning agent (e.g. washing-up liquid).
2. Remove residuals according to the waste disposal laws applicable in your area.

## 6. Trouble Shooting

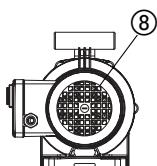

**Warning ! Electric shock!**

Risk of injury due to electric shock.

→ Disconnect Garden Pump from the mains before trouble-shooting

### Free the impeller:

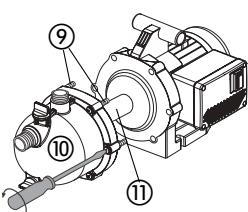

An impeller blocked by dirt can be freed again.

→ Turn the impeller bolt (8) using a screwdriver.  
This will free the blocked impeller.

### Cleaning the pump thoroughly:

1. Unscrew the 6 housing bolts (9).
2. Remove the housing cover (10) and clean the impeller chamber.
3. Tighten the impeller bolt (8) using a screwdriver.
4. Loosen the impeller (11) using a ring spanner, remove and clean.
5. Install the impeller (11) in the reverse order.

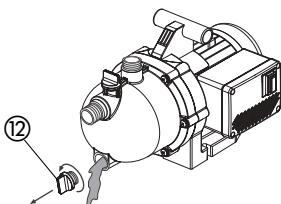

Problem	Probable cause	Remedy
<b>Pump runs, but the suction action doesn't take place.</b>	The pump was not filled with the liquid to be pumped.  The liquid escapes over the hose which is connected to the delivery side during the suction action.	► Fill the pump (see "4. Operation").  1. Fill the pump again (see "4. Operation"). 2. When starting operation hold the pressure hose approx. 1 m vertically above the pump, until the suction action has taken place.
	Leaky or damaged suction hose.	► Seal the connections or check suction hose for damages.
	Absolutely vacuum-resistant connection is achieved by using GARDENA Suction Hoses (see point 8. Accessories).	
	Leaky screw fitting ⑤ at the filler cap ⑥.	► Tighten the screw fitting (do not use pliers).
	Air cannot escape, since delivery side is closed or remaining water is in the pressure hose.	► Open all possible shut-off devices (e.g. spray nozzle) in the pressure line, or drain the pressure hose or disconnect it during the suction action.
	The waiting time wasn't observed.	► Switch on the pump and wait max. 7 min.
	Suction filter or backflow preventer in the suction hose clogged.	► Clean the filter or the back flow preventer.
	Too high suction height.	► Reduce suction height.
	In case of any other difficulties concerning the suction action, use GARDENA Suction Hoses with Backflow Preventer (see point 8. Accessories) and fill in the liquid to be pumped over the filler cap ⑥ before operation.	
<b>Pump motor runs, but delivery capacity or pressure suddenly decreases.</b>	Suction filter at the suction hose is sucked free.	► Reduce flow rate on the delivery side with a control valve, e.g. GARDENA art. no. (2)977.
	Suction filter or backflow preventer clogged.	► Clean filter or back-flow preventer.
	Leaks at suction side.	► Eliminate leak.
	Impeller blocked.	► Loosen the impeller or clean the impeller chamber.
<b>Pump motor doesn't start or suddenly stops.</b>	No power.	► Check fuses and electric connections.
	Thermal overload switch has cut out the pump due to overheating/overloading.	► Ensure sufficient cooling / ventilation and clean the impeller chamber.
	Electric failure.	► Send the pump to one of our GARDENA Service Centres.

If you have any other problem with your Garden Pump, please contact our Customer Service.

## 7. After Operation

### Wintering/Storage:

You should empty your Garden Pump before the first frost sets in.

1. Open the water drain screw ⑫.  
*The Garden Pump drains.*
2. Store your Garden Pump so that it is protected from frost.

## 8. Accessories

<b>GARDENA Suction Hoses</b>	Kink- and vacuum-resistant, sold by the metre with 19 mm (3/4") or 25 mm (1") diameter without fittings or in fixed length, complete with fittings.	
<b>GARDENA Suction Hose Fittings</b>		• Art. no. 1723/1724
<b>GARDENA Suction Filter</b>	To equip suction hoses with Backflow Preventer sold by the metre.	• Art. no. 1726/1727/1728
<b>GARDENA Pump Preliminary Filter</b>	Recommended for pumping sandy liquids.	• Art. no. 1731
<b>GARDENA Electronic Manometric Switch</b>	Automatically cuts in and out the pump depending on the current operating pressure. With dry-running safety.	• Art. no. 1739
<b>GARDENA Dry-Running Safety</b>	Prevents the pump from damages in case of missing liquid.	• Art. no. 1741
<b>GARDENA Bore Hole Suction Hose</b>	For vacuum-resistant connection of the pump to boreholes or pipe networks. Length 0.5 m. With 33.3 mm (G1) female thread at both ends.	• Art. no. 1729

## 9. Technical Data

<b>Typ</b>	<b>3000/3 Jet</b>
Rated power	600 W
Max. delivery capacity	3,000 l / h
Max. pressure	3.3 bar
Max. delivery head	33 m
Max. self-priming suction height	7 m
Perm. internal pressure (delivery side)	6 bar
Voltage / Frequency	230 V AC / 50 Hz
Weight	6,1 kg
Noise level L <sub>WA</sub> <sup>1)</sup>	71 dB (A)

## 10. Service

### ***Warranty***

GARDENA guarantees this product for 2 years (from date of purchase).

This guarantee covers all serious defects of the unit that can be proved to be material or manufacturing faults. Under warranty we will either replace the unit or repair it free of charge if the following conditions apply:

- The unit must have been handled properly and in keeping with the requirements of the operating instructions.
- Neither the purchaser or a non-authorised third party have attempted to repair the unit.

The impeller is a wearing part and is not covered by the warranty.

This manufacturer's guarantee does not affect the user's existing warranty claims against the dealer/seller.

If a fault occurs with your Garden Pump, please return the faulty unit together with a copy of the receipt and a description of the fault, with postage paid to one of the GARDENA Service Centres listed on the back of these operating instructions.

<b>D Produkthaftung</b>	Wir weisen ausdrücklich darauf hin, dass wir nach dem Produkthaftungsgesetz nicht für durch unsere Geräte hervorgerufene Schäden einzustehen haben, sofern diese durch unsachgemäße Reparatur verursacht oder bei einem Teileaustausch nicht unsere originale GARDENA Teile oder von uns freigegebene Teile verwendet wurden und die Reparatur nicht vom GARDENA Service oder dem autorisierten Fachmann durchgeführt wird. Entsprechendes gilt für Ergänzungsteile und Zubehör.
<b>GB Product Liability</b>	We expressly point out that, in accordance with the product liability law, we are not liable for any damage caused by our units if it is due to improper repair or if parts exchanged are not original GARDENA parts or parts approved by us, and, if the repairs were not carried out by a GARDENA Service Centre or an authorised specialist. The same applies to spare parts and accessories.
<b>F Responsabilité</b>	Nous vous signalons expressément que GARDENA n'est pas responsable des dommages causés par ses appareils, dans la mesure où ces dommages seraient causés suite à une réparation non conforme, dans la mesure où, lors d'un échange de pièces, les pièces d'origine GARDENA n'auraient pas été utilisées, ou si la réparation n'a pas été effectuée par le Service Après-Vente GARDENA ou l'un des Centres SAV agréés GARDENA. Ceci est également valable pour tout ajout de pièces et d'accessoires autres que ceux préconisés par GARDENA.
<b>NL Productaansprakelijkheid</b>	Wij wijzen er nadrukkelijk op, dat wij op grond van de wet aansprakelijkheid voor producten niet aansprakelijk zijn voor schade ontstaan door onze apparaten, indien deze door onvakkundige reparatie veroorzaakt zijn, of er bij het uitwisselen van onderdelen geen gebruik gemaakt werd van onze originele GARDENA onderdelen of door ons vrijgegeven onderdelen en de reparatie niet door de GARDENA technische dienst of de bevoegde vakman uitgevoerd werd. Ditzelfde geldt voor extra-onderdelen en accessoires.
<b>S Produktansvar</b>	Tillverkaren är inte ansvarig för skada som orsakats av produkten om skadan beror på att produkten har reparerats felaktigt eller om, vid reparation eller utbytte, andra än Original GARDENA reservdelar har använts. Samma sak gäller för kompletteringsdelar och tillbehör.
<b>I Responsabilità del prodotto</b>	Si rende espressamente noto che, conformemente alla legislazione sulla responsabilità del prodotto, non si risponde di danni causati da nostri articoli se originati da riparazioni eseguite non correttamente o da sostituzioni di parti effettuate con materiale non originale GARDENA o comunque da noi non approvato e, in ogni caso, qualora l'intervento non venga eseguito da un centro assistenza GARDENA o da personale specializzato autorizzato. Lo stesso vale per le parti complementari e gli accessori.
<b>E Responsabilidad de productos</b>	Advertimos que conforme a la ley de responsabilidad de productos no nos responsabilizamos de daños causados por nuestros aparatos, siempre y cuando dichos daños hayan sido originados por arreglos o reparaciones indebidas, por recambios con piezas que no sean piezas originales GARDENA o bien piezas no autorizadas por nosotros, así como en aquellos casos en que la reparación no haya sido efectuada por un Servicio Técnico GARDENA o por un técnico autorizado. Lo mismo es aplicable para las piezas complementarias y accesorios.
<b>P Responsabilidade sobre o produto</b>	Queremos salientar que segundo a lei da responsabilidade do fabricante, nós não nos responsabilizaremos por danos causados pelo nosso equipamento, quando estes ocorram em decorrência de reparações inadequadas ou da substituição de peças por peças não originais da GARDENA, ou peças não autorizadas. A responsabilidade tornar-se-á nula também depois de reparações realizadas por oficinas não autorizadas pela GARDENA. Esta restrição valerá também para peças adicionais e acessórios.
<b>DK Produktansvar</b>	Vi gör udtrykkeligt opmærksom på at i henhold til produktansvarsloven er vi ikke ansvarlige for skader forårsaget af vores udstyr, hvis det er på grund af uautoriserede reparationer eller hvis dele er skiftet ud og der ikke er anvendt originale GARDENA dele eller dele godkendt af os, eller hvis reparationerne ikke er udført af GARDENA-service eller en autoriseret fagmand. Det samme gælder for ekstra udstyr og tilbehør.
