Do not use Trimmer when safety devices (starting lock-out, start button, safety cover) and/or blade are damaged or worn.

- Never bypass the safety devices.
- Inspect the area to be cut before you begin work. Remove any foreign objects and look out for foreign objects (such as stones, pieces of wood, strings and wires) while you are working.
- If you should come across an obstacle while cutting, turn off the Trimmer. Remove the object and check the Trimmer for any damage. If necessary have your Trimmer repaired.

Use / responsibility

The Trimmer can cause serious injuries.

- Use the Trimmer only for the purpose specified in these operating instructions.
- You are responsible for the safety in the area where you are working.
- Ensure that there are no other people (especially children) or animals within or near the area where you are working.

The Trimmer should only be used with the blade carrier also supplied and original GARDENA Spare Blades.

Interrupting work

Never leave the Trimmer unattended where you are working.

- If you stop work, store your Trimmer in a safe place.
- If you stop work in order to move to another part of the garden, always switch off the Trimmer and wait until the blade stops.

Familiarise yourself with the surroundings

- Familiarise yourself with the surroundings and look out for possible dangers which you may not hear due to machine noise.
- Never use the Turbotrimmer when it is raining or in damp, wet areas.

Battery safety

FIRE RISK!

- Never charge the batteries near acids or easily inflammable materials.

Only use the original GARDENA Battery Charger for charging. The use of other battery chargers may damage the batteries irreparably and even cause a fire.

RISK OF EXPLOSION!

- Protect Accu Trimmer from heat and fire.

Do not leave on radiators or expose to strong sunshine for long periods.

Only use your Accu Trimmer in an ambient temperature between -10°C and $+45^{\circ}\text{C}$.

The charging cable should be checked regularly for signs of damage or ageing (brittleness) and may only be used if it is in perfect condition.

The charger unit provided may only be used to charge the rechargeable batteries supplied with the Turbotrimmer.

Non-rechargeable batteries must not be charged with this battery charger (danger of fire).

Only charge battery between 10 – 45 °C. After heavy duty service allow battery to cool down first.

Storage:

The trimmer must not be stored over 35 °C or under direct exposure to sunlight.

Do not store the trimmer in places with static electricity.

3. Assembly

Assembling the trimmer:

1. Push the cover ③ into the guide of the cutting head from behind ② until the connection locks into place on both sides.
2. Push plant guard ① onto the cutting head from the front ② until it locks into place.

4. First remove the charging cable from the charging socket and then unplug the battery charger from the mains socket.
5. Push the battery ⑪ down onto the upper part of the handle ⑫.

Avoid exhaustive discharge:

Do not wait until the blade comes to an absolute stop (battery totally discharged) as this shortens the battery life.

→ If the output of the trimmer decreases noticeably, charge the battery.

If the battery has been totally discharged, the LED will flash at the start of charging. If the LED is still flashing after an hour, a fault has occurred (see 8. Troubleshooting).
