EN Product liability

In accordance with the German Product Liability Act, we hereby expressly declare that we accept no liability for damage incurred from our products where said products have not been properly repaired by a GARDENA-approved service partner or where original GARDENA parts or parts authorised by GARDENA were not used.

PL Odpowiedzialność za produkt

Zgodnie z niemiecką ustawą o odpowiedzialności za produkt, niniejszym wyraźnie oświadczamy, że nie ponosimy żadnej odpowiedzialności za szkody poniesione na skutek użytkowania naszych produktów, w przypadku gdy naprawa tych produktów nie była odpowiednio przeprowadzana przez zatwierdzonego przez firmę GARDENA partnera serwisowego lub nie stosowano oryginalnych części GARDENA albo części autoryzowanych przez tę firmę.

HU Termékszavatosság

A németországi termékszavatossági törvénnyel összhangban ezennel nyomatékosan kijelentjük, hogy nem vállalunk felelősséget a termékeinkben keletkezett olyan károkért, amelyek valamely GARDENA által jóváhagyott szervizpartner által nem megfelelően végzett javításból adódtak, vagy amely során nem eredeti GARDENA alkatrészeket vagy a GARDENA által jóváhagyott alkatrészeket használtak fel.

CS Odpovědnost za výrobek

V souladu s německým zákonem o odpovědnosti za výrobek tímto výslovně prohlašujeme, že nepřijímáme žádnou odpovědnost za poškození vzniklá na našich výrobcích, kdy zmíněné výrobky nebyly řádně opraveny schváleným servisním partnerem GARDENA nebo kdy nebyly použity originální náhradní díly GARDENA nebo náhradní díly autorizované společností GARDENA.

SK Zodpovednosť za produkt

V súlade s nemeckými právnymi predpismi upravujúcimi zodpovednosť za výrobok týmto výslovne prehlasujeme, že nenesieme žiadnu zodpovednosť za škody spôsobené našimi výrobkami, v prípade ktorých neboli náležité opravy vykonané servisným partnerom schváleným spoločnosťou GARDENA alebo neboli použité diely spoločnosti GARDENA alebo diely schválené spoločnosťou GARDENA.

EL Ευθύνη προϊόντος

Σύμφωνα με τον γερμανικό νόμο περί Ευθύνης για τα Προϊόντα, με το παρόν δηλώνουμε ρητώς ότι δεν αποδεχόμαστε καμία ευθύνη για τυχόν ζημιές που προκύπτουν από τα προϊόντα μας εάν αυτά δεν έχουν επισκευαστεί σωστά από κάποιον εγκεκριμένο συνεργάτη επισκευών της GARDENA ή εάν δεν έχουν χρησιμοποιηθεί αυθεντικά εξαρτήματα GARDENA ή εξαρτήματα εγκεκριμένα από την GARDENA.

SL Odgovornost proizvajalca

V skladu z nemškimi zakoni o odgovornosti za izdelke, izrecno izjavljajo, da ne sprejemamo nobene odgovornosti za škodo, ki jo povzročijo naši izdelki, če teh niso ustrezno popravili GARDENINI odobreni servisni partnerji ali pri tem niso bili uporabljeni originalni GARDENINI nadomestni deli ali GARDENINIMI homologiranimi nadomestnimi deli.

HR Pouzdanost proizvoda

Sukladno njemačkom zakonu o pouzdanosti proizvoda, ovime izričito izjavljujemo kako ne prihvaćamo nikakvu odgovornost za oštećenja na našim proizvodima nastala uslijed neispravnog popravka od strane servisnog partnera kojeg odobrava GARDENA ili uslijed nekorištenja originalnih GARDENA dijelova ili dijelova koje odobrava GARDENA.

RO Răspunderea pentru produs

În conformitate cu Legea germană privind răspunderea pentru produs, declarăm în mod expres prin prezentul document că nu acceptăm nicio răspundere pentru defecțiunile suferite de produsele noastre atunci când acestea nu au fost reparate în mod corect de un atelier de service partener, aprobat de GARDENA, sau când nu au fost utilizate piese GARDENA originale sau piese autorizate de GARDENA.

BG Отговорност за вреди, причинени от стоки

Съгласно германския Закон за отговорността за вреди, причинени от стоки, с настоящото изрично декларираме, че не носим отговорност за щети, причинени от нашите продукти, ако те не са били правилно ремонтирани от одобрен от GARDENA сервиз или ако не са използвани оригинални части на GARDENA или части, одобрени от GARDENA.

ET Tootevastutus

Vastavalt Saksamaa tootevastatusseadusele deklareerime käesolevaga selgesõnaliselt, et me ei kanna mingisugust vastutust meie toodetest tingitud kahjude eest, kui need tooted ei ole korrektselt parandatud GARDENA heakskiidetud hoolduspartneri poolt või kui parandamisel ei ole kasutatud GARDENA originaalosi või GARDENA volitatud osi.

LT Gaminio patikimumas

Mes aiškiai pareiškiame, kad, atsižvelgiant į Vokietijos gaminių patikimumo įstatymą, neprisiimame atsakomybės dėl bet kokios žalos, patirtos dėl mūsų gaminių, jeigu jie buvo netinkamai taisomi arba jų dalys buvo pakeistos neoriginaliomis GARDENA dalimis ar nepatvirtintomis dalimis, arba jeigu remonto darbai buvo atliekami ne GARDENA techninės priežiūros centro specialistų.

LV Atbildība par produkcijas kvalitāti

Saskaņā ar Vācijas likumu par atbildību par produkcijas kvalitāti ar šo mēs paziņojam, ka neuzņemamies atbildību par bojājumiem, kas radušies, lietojot mūsu izstrādājumus, kuru remontu nav veicis uzņēmuma GARDENA apstiprināts apkopes partneris vai kuru remontam netika izmantotas oriģinālās GARDENA detaļas vai detaļas, kuru lietošanu apstiprinājis uzņēmums GARDENA.

Original instructions.

This product may be used under supervision, or if instruction regarding the safe use of the product has been provided and the resulting dangers have been understood, by children aged 8 and above, as well as by persons with physical, sensory or mental disabilities or a lack of experience and knowledge. Children must not be allowed to play with the product. Cleaning and user maintenance must not be performed by children without supervision. The use of this product by young people under the age of 16 is not recommended. Never operate the product when you are tired, ill or under the influence of alcohol, drugs or medicine.

Intended use:

The **GARDENA Submersible Pressure Pump** is intended for the extraction of water from wells, shafts and other water reservoirs, for the operation of irrigation equipment and systems, also for pumping rainwater, tap water and water containing chlorine in private domestic gardens and allotments.

Liquids to be pumped:

The GARDENA Submersible Pressure Pump must only be used to pump water. The pump is fully submersible (water-tight encapsulation) and is submerged in water (for max. submersion depth, see 7. TECHNICAL DATA). The pump is equipped with an integrated check valve, which prevents automatic drainage of the pressure hose when the pump is shut down.

The product is not intended for long term use (continuous circulation operation).

DANGER! Risk of injury!
The pump should not be used for the delivery of salt water, muddy water, corrosive, easily inflammable or explosive liquids (e.g. petrol, paraffin, thinners), oil, heating oil or foodstuffs.

1. SAFETY

IMPORTANT!

Read the operator's manual carefully before use and keep for future reference.

Symbols on the product:

Read operator's manual.

General safety warnings

Electrical safety

DANGER! Electric shock!
Risk of injury due to electric current.

→ The product must be supplied through a residual current device (RCD) having a rated residual operating current not exceeding 30 mA.

DANGER! Risk of physical injury!
Risk of injury due to electric current.

→ Disconnect the product from the mains before you maintain or replace parts. Thereby the disconnected socket must be in the visual range.

Safe operating practices

The water temperature should not exceed 35 °C.

The pump must not be used when people are in the water.

Pollution of the liquid could occur due to leakage of lubricants.

Circuit breakers

Dry-running protection:

If the water level is too low, the pump switches off automatically.

→ Submerge the pump deeper into the water.

Thermal protection switch:

In the event of an overload, the pump is switched off by the built-in thermal motor protection. After sufficient cooling of the motor, the pump is operational again.

Automatic venting

This pump is equipped with a vent valve which eliminates any air pockets in the pump. Depending on the function, a small amount of water can escape below the handle.

Additional safety warnings

Electrical safety

DANGER! Cardiac arrest!

This product makes an electromagnetic field while it operates. This field may under some conditions interfere with active or passive medical implants. To decrease the risk of conditions that can possibly injure or kill, we recommend persons with medical implants to speak with their physician and the medical implant manufacturer before you operate the product.

Cables

If extension cables are used, these must comply with the minimum cross-sections in the table below:

Voltage	Cable length	Cross section
230 – 240 V/ 50 Hz	Up to 20 m	1.5 mm ²
230 – 240 V/ 50 Hz	20 – 50 m	2.5 mm ²

DANGER! Electric shock!

With a cut off mains plug, moisture can get into electrical parts via the mains cable and cause a short circuit.

→ **Never cut the mains plug off (e.g. to feed through wall).**

→ Don't use the power cable for plugging off.

→ If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.

Mains plug and extension connections must be protected from water splashes.

Ensure that the electrical connections for plugs and sockets are made in areas safe from flooding.

Protect the mains plug and the mains power cable from heat, oil and sharp edges.

Observe the mains voltage. The information on the nameplate must be in agreement with the data for the mains power grid.

The pump's mains plug must be disconnected before anybody enters the swimming pool.

The mains power cable must not be used for fastening or transporting the pump.

For submerging or lifting/securing the pump, please use the fastening rope.

Please regularly check the connecting line.

Before using, always subject the pump (especially the power cables and the power connections) to a visual inspection.

A pump which is damaged should not be used. In the event of damage, have the pump checked by GARDENA Service.

Do not disassemble the pump any further than the delivery condition.

Before use after maintenance, make sure that all parts are screwed together.

When using our pumps with a generator, the warnings of the generator manufacturer must be observed.

Personal safety

DANGER! Risk of suffocation!

Small parts can be easily swallowed. There is also a risk that the poly-bag can suffocate toddlers. Keep toddlers away when you assemble the product.

Observe the minimum water level in accordance with the characteristics given for the pump.

Allow the pump to run no longer than 10 minutes against a closed pressure side.

Sand and other abrasive substances cause increased wear and reduce the pump's output.

The pump must not be operated without the filter.

The hose must not be disconnected during operation.

Allow the pump to cool down before troubleshooting.

2. ASSEMBLY

DANGER! Risk of injury!

Injury when the product starts accidentally.

→ Disconnect the product from the mains before you assemble the product.

The hose can be connected via the pump connection ① and the connection nipple ② [19 mm (3/4")/25 mm (1")] or via the GARDENA Connection System [13 mm (1/2")/16 mm (5/8")/19 mm (3/4")]. When using a 25 mm (1") hose, the pump has the maximum delivery capacity.

With a parallel connection of more than one hose or connected devices, the **GARDENA 2- / 4-Way Valve (Art. 1210/1194)** can be used, which is screwed straight onto the pump connection ①.

Connect hose via connection nipple [Fig. A1]:

25 mm (1")- and 19 mm (3/4") hoses can be connected via the connection nipple ②.

Hose diameter	25 mm (1")	19 mm (3/4")
GARDENA Hose Clamp	Art. 7192	Art. 7191
Hose connection [Fig. A1]	Detach nipple at ④ [Fig. A2].	Do not detach nipple [Fig. A3].

25 mm (1")- and 19 mm (3/4") hoses connected with a connection nipple ② must be fastened, for example with a **GARDENA Hose Clamp Art. 7192/7191**.

1. [Fig. A4]: Put the float switch locking ④ on the pump connector ①.
2. Screw connection nipple ② onto the pump connection ①.
(With 25 mm (1") hoses, first disconnect the connection nipple ② at ④.)
3. Push the hose onto the connection nipple ② and fix e.g. with a **GARDENA Hose Clamp Art. 7192/7191**.

3. OPERATION

DANGER! Risk of injury!

Injury when the product starts accidentally.

→ Disconnect the product from the mains before you connect, adjust or transport the product.

To pump water [Fig. O1]:

The pump must always be submerged in the well or water reservoir with the rope provided. For the pump to be primed, the pump must be submerged at least 60 mm. So that the filter does not become dirty, the pump should be fixed at least 30 cm above the ground.

1. Attach the rope ③ securely to the handle ④.
2. Submerge the pump in the well or water reservoir via the rope ③.
3. Secure the rope ③.
4. With deep wells or shafts (from approx. 5 m), route the connection cable ⑤ along the rope ③ with clips.
5. Connect the pump to the mains.
*The pump starts approx. 3 sec. after connecting the connection cable.
The pump is ready for operation.*

Automatic mode with float switch [Fig. O2]:

So that the pump automatically switches off when there is no liquid to pump, the Float Switch ⑥ must be able to freely move on the surface of the water.

To adjust the Cut-in and Cut-out Height [Fig. O3]:

The maximum cut-in height and minimum cut-out height (see 7. TECHNICAL DATA) can be adjusted by pushing the float switch wire into the float switch lock ④.

- The shorter the length of cable between the float switch ⑥ and the float switch lock ④, the lower the cut-in height and the higher the cut-out height.

→ Push the cable of the float switch ⑥ into the opening in the float switch lock ④.

CAUTION!

In order to ensure that the float switch is able to switch on and off, the cable length between the float switch and the float switch lock must be at least 10 cm.

Manual operation [Fig. O4]:

The pump remains permanently in operation because the float switch is bypassed. This deactivates the dry-running protection of the pump.

1. Push the float switch ⑥ onto the float switch locking ④ with the cable downwards.
2. Immerse the pump in a well or shaft using a rope attached to the pump.
3. Connect the pump to the mains.
Attention! The pump begins operating immediately.

The minimum residual water depth (see 7. TECHNICAL DATA) is only achieved in manual mode because the float switch already switches off the pump before this when in automatic mode.

4. MAINTENANCE

DANGER! Risk of injury!

Injury when the product starts accidentally.

→ Disconnect the product from the mains before you maintain the product.

To clean the filter [Fig. M1]:

In order to ensure continuous trouble-free operation, the filter ⑦ should be cleaned at regular intervals.

After pumping dirty water, the filter ⑦ must be cleaned immediately.

1. Turn the filter ⑦ 1/4 turn clockwise and remove it (bayonet lock).
2. Clean the filter ⑦ under running water.
3. Re-install the filter ⑦ in the opposite sequence.

The pump must not be operated without the filter.

To flush the pump:

After pumping chlorinated water, the pump must be flushed.

1. Pump lukewarm water (max. 35 °C), possibly adding a mild cleaning agent (e.g. detergent) until the pumped water runs clear.
2. Remove residuals according to the waste disposal laws applicable in your area.

5. STORAGE

To put into storage:

The pump is not frost-proof!

The product must be stored away from children.

1. Disconnect the pump from the mains.
2. Turn the pump upside down until no more water runs out.
3. Clean the pump (see 4. MAINTENANCE).
4. Store the pump in a dry, enclosed and frost-free place.

Disposal:

(in accordance with RL2012/19/EC)

The product must not be disposed of to normal household waste. It must be disposed of in line with local environmental regulations.

IMPORTANT!

→ Dispose of the product through or via your municipal recycling collection centre.

6. TROUBLESHOOTING

DANGER! Risk of injury!

Injury when the product starts accidentally.

→ Disconnect the product from the mains before you troubleshoot the product.

Problem	Possible Cause	Remedy
Pump is running, but doesn't deliver water	Air cannot escape, because the pressure line is closed. (Possible kink in the pressure hose.)	→ Open the pressure line (e.g. shut-off valve, delivery units).
	Air in suction foot.	→ Wait for about 60 seconds until the pump has vented; if necessary, turn off and then on again.

Problem	Possible Cause	Remedy
Pump is running, but doesn't deliver water	Filter is clogged.	→ Clean the filter (see 4. MAINTENANCE).
	Water level below minimum water level when put into operation.	→ Submerge the pump deeper.
Pump does not start, or stops suddenly during operation	Thermal switch has turned the pump off because of overheating.	→ Clean the filter (see 4. MAINTENANCE). Observe the max. media Temperature (35 °C).
	Pumping without electricity.	→ Check fuses and electrical plug connections.
	RCD has triggered (residual current).	→ Disconnect the pump and contact the GARDENA Service.
Pump is running but the delivery drops suddenly	Filter is clogged.	→ Clean the filter (see 4. MAINTENANCE).

NOTE: For any other malfunctions please contact the GARDENA service department. Repairs must only be done by GARDENA service departments or specialist dealers approved by GARDENA.

9. SERVICE/WARRANTY

Service:

Please contact the address on the back page.

Warranty statement:

In the event of a warranty claim, no charge is levied to you for the services provided.

GARDENA Manufacturing GmbH grants a warranty for all original GARDENA new products for two years from the date of original purchase from the retailer, provided that the devices have been for private use only. This manufacturer's warranty does not apply to products acquired second hand. This warranty includes all significant defects of the product that can

be proved to be material or manufacturing faults. This warranty is fulfilled by supplying a fully functional replacement product or by repairing the faulty product sent to us free of charge; we reserve the right to choose between these options. This service is subject to the following provisions:

- The product has been used for its intended purpose as per the recommendations in the operating instructions.
- Neither the purchaser nor a third party has attempted to open or repair the product.
- Only Original GARDENA replacement parts and wear parts have been used for operation.
- Presentation of the receipt.

Normal wear and tear of parts and components (such as blades, blade fixing parts, turbines, light bulbs, V-belts/toothed belts, impellers, air filters, spark plugs), visual changes, wear parts and consumables are excluded from the warranty.

This manufacturer's warranty is limited to replacement and repair of products in accordance with the abovementioned conditions. The manufacturer's warranty does not constitute an entitlement to lodge other claims against us as a manufacturer, such as for damages. This manufacturer's warranty does **not**, of course, affect statutory and contractual warranty claims against the dealer/retailer.

The manufacturer's warranty is governed by the law of the Federal Republic of Germany.

In case of a warranty claim, please return the faulty product, together with a copy of the receipt and a description of the fault, with postage paid to the service address.

Consumables:

The impeller and the filter are consumables and are not included in the warranty.
