

### **Husqvarna Group Customer information on REACh regarding brand Flymo**

The REACh directive (Registration, Evaluation and Authorization of Chemicals) entered into force on June 1<sup>st</sup>, 2007.

Certain substances have been selected, listed and issued in the candidate list by the European Chemicals Agency (ECHA) as Substances of Very High Concern (SVHC). The REACh directive thereby encourages manufactures to substitute these chemicals, when suitable alternatives have been identified.

Where applicable, the REACh legislation requires Husqvarna Group to inform customers if a product contains more than 0,1% w/w of substances listed on the candidate list.

Husqvarna Group maintains constant and on-going checks, in close cooperation with our suppliers, of the products and other articles to be able to give the latest information.

Last update REACH Candidate List 07/08/2021
