en Assembly Instructions
Leaf and Grass Collector

A1**A2****A3****A4****A5****A6****S1****O1****O2**

GARDENA Leaf and Grass Collector

Intended use:

The **GARDENA Leaf and Grass Collector** is intended to collect leaves, scarifying material and grass cuttings on lawns in private gardens and allotments.

The product is not intended for long term use.

1. SAFETY

DANGER! Risk of suffocation!
Small parts can be easily swallowed. There is also a risk that the polybag can suffocate toddlers. Keep toddlers away when you assemble the product.

2. ASSEMBLY

To assemble the feet [Fig. A1]:

→ Slide the feet ① into the holders ② on the leaf collector until they audibly engage.

To assemble the tube [Fig. A2/A3]:

1. Slide the lower tube ③ with the cut-out ④ upwards into the tube holder ④ until it stops.
2. Screw the tube tight with 2 screws ⑤.
3. Slide the connecting piece ⑥ onto the tube ③ mounted in the leaf and grass collector until it stops.
4. Screw the connecting piece ⑥ tight with 2 screws ⑤.
5. Slide the upper tube ③ with the cut-out ④ upwards into the handle ⑧ until it stops.
6. Screw the handle ⑧ tight with 2 screws ⑤.
7. Slide the collecting bag hook ⑦ in the direction of the product onto the tube ③.
8. Slide the upper tube ③ into the connecting piece ⑥ until it stops.
9. Screw the connecting piece ⑥ tight with 2 screws ⑤.

To assemble the collecting bag [Fig. A4/A5/A6]:

1. Thread the C-shaped bow ⑨ into the guides of the collecting bag ⑩ in such a way that both ends of the C-shaped bow ⑨ are equally far out of the bag ⑩.
2. Push the handle ⑪ onto both ends of the C-shaped bow ⑨ until it stops.
3. Thread the U-shaped bow ⑫ into the guides of the collecting bag ⑩.
4. Push the U-shaped bow ⑫ into the handle ⑪ until it stops.
5. Push the plastic strip ⑬ onto the U-shaped bow ⑫.
6. Hook the collecting bag with the U-shaped bow ⑫ into the hooks ⑬.
7. Slide the collecting bag hook ⑦ onto the C-shaped bow ⑨.

3. OPERATION

To adjust the height [Fig. O1]:

With the help of the stepless height adjustment, you must adjust the leaf collector to the ground in order to achieve an optimal collection result.

As different surfaces (e.g. lawn, asphalt) have different requirements, you must adjust the leaf collector so that the brushes **lightly touch the ground**. Moreover, you must quickly slide the leaf collector over the lawn.

1. Turn the rotary knob ⑭ in order to unlock the height adjustment ⑭.
2. Set the tube ③ to the appropriate position.
3. Turn the rotary knob ⑭ in order to lock the height adjustment ⑭.

Hints for the use of the leaf and grass collector:

The GARDENA leaf and grass collector works like a mechanical rake and is therefore environmentally friendly. The rotating brushes are driven by the wheels. The better the wheels grip the ground, the better the collection result.

Solid objects such as acorns, chestnuts, fallen fruit etc. are not collected. For large-leaved leaves with stems (e.g. chestnut) the leaf collector is only suitable to a limited extent, as this can get entangled in the rotating brushes.

Leaves on paved paths or asphalt can be collected to a limited extent. In this case, however, it is sometimes necessary to drive several times.

Remove the collecting bag [Fig. O2]:

1. Remove the collecting bag hook ⑦ from the C-shaped bow ⑨.
2. Take the collecting bag with the handle ⑪ and remove it diagonally upwards.

4. MAINTENANCE

To clean the leaf and grass collector:

DANGER! Risk of injury!
Risk of injury and risk of damage to the product.

- Do not clean the product with a high-pressure water jet.
- Do not clean with chemicals including petrol or solvents. Some can destroy critical plastic parts.

5. STORAGE

In case of prolonged storage, you must set the position to **P** to relieve the brushes and to avoid deformation of the brushes.

1. Set the height adjustment to position **P**.
2. Store the leaf collector in an upright position to save space [Fig. S1].

6. TROUBLESHOOTING

Problem	Possible Cause	Remedy
The collection of leaves is poor	Height adjustment is wrong.	→ Adjust the height adjustment according to the ground.
	Discharge or collecting bag is full.	→ Empty the collecting bag.

NOTE: For any other malfunctions please contact the GARDENA service department. Repairs must only be done by GARDENA service departments or specialist dealers approved by GARDENA.

7. SERVICE

Please contact the address on the back page.
